

Read2Win!

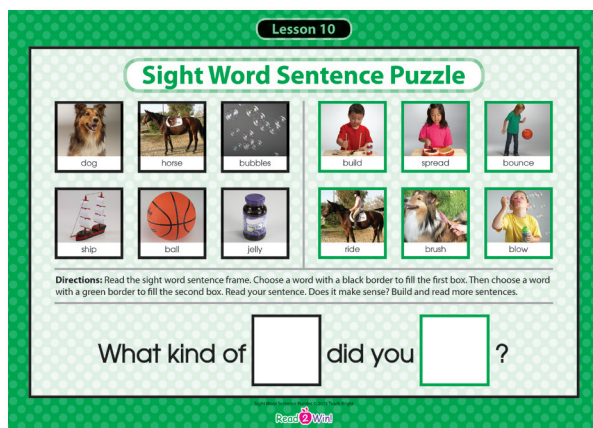

Early Steps for Reading Success

Read2Win is a first grade tutor program designed to build a strong early reading foundation through one-on-one instruction.

The carefully crafted scope and sequence along with easy-to-use lessons make successful program implementation achievable for both lay volunteers and experienced educators.

Through high-interest **decodable stories**, young readers will learn to “crack the code” as they begin to understand that letters represent sounds, sounds can be put together to make words, and words convey meaning.

Each of the **28 lessons** develops essential reading skills and strategies to build **confident, lifelong readers!**

Engaging **sight word sentence frames** reinforce over 150 high-frequency words using an interactive format. These “workhorse” words are practiced in isolation and in context to improve fluency and comprehension.

- Phonics
- Fluency
- Comprehension
- Vocabulary
- Sight Word Recognition

PERFECT FOR VOLUNTEER READING PROGRAMS, INTERVENTION, AFTER-SCHOOL PROGRAMS, AND CLASSROOM READING HELPERS!
